

FULL FEATURE INVENTORY

Everything actors can do in *MasterCast*.

This document consolidates the current actor-side feature set across onboarding, profile management, discovery, audition booking, callbacks, casts, production access, and account tools. Tier-limited items are marked inline.

Profile + media

Discovery + booking

Callbacks + casts

Production access

Actor tiers at a glance

FREE

Includes profile creation, audition discovery, submissions, manual per-show conflicts, and core pipeline tracking.

PRO

Adds extended profile fields, richer media limits, persistent conflict tools, experience sections, and resume generation.

CROSS-CONTEXT

An actor can share an email with company roles and switch between actor mode and company contexts.

PRODUCTION-READY

Actors can move from discovery through bookings, callbacks, cast offers, and into the Production Hub.

Feature Inventory

Organized by how actors actually move through MasterCast:
account setup, profile preparation, opportunity discovery, booking,
pipeline tracking, and production participation.

Account, Identity, and Navigation

Core account creation and context features available from first sign-in onward.

- **ALL** First-sign-in actor onboarding with profile details and plan selection.
- **ALL** Free and Pro actor plan choice during onboarding, with later upgrade support.
- **ALL** Automatic actor profile routing after sign-in when no other contexts exist.
- **ALL** Context chooser for users who also belong to one or more companies.
- **ALL** Top-right context switching between actor mode and company memberships.
- **ALL** Actor navigation with My Profile, Find Auditions, Companies I Follow, My Bookings, My Callbacks, My Casts, Production Hub, My Conflicts, Email Preferences, Account Settings, Feedback & Support, Guides, and Release Notes.
- **ALL** Create a Company entry point for actors who are not yet company members.

Profile and Materials

Identity, presentation, and media-management features that support submissions and casting review.

- **FREE** **PRO** Basic actor profile with name, stage name, contact details, location, emergency contact, website, vocal ranges, dance ability, and dance experience.
- **PRO** Extended profile fields including bio, union status, ethnicity, hair color, eye color, measurements, clothing sizes, and special skills.
- **PRO** Experience tabs for Acting, Technical, Education, and Awards entries.
- **PRO** Resume generation from profile and experience data.
- **FREE** **PRO** Headshot storage with tier-based limits: 1 on Free, up to 10 on Pro.
- **FREE** **PRO** Resume PDF uploads with tier-based limits: 1 on Free, up to 10 on Pro.
- **FREE** **PRO** Audition video storage with tier-based limits: 1 on Free, up to 10 on Pro.
- **ALL** Profile header with tier badge, city/state chips, ranges display, primary headshot, and edit actions.

Discovery and Audition Search

Features that help actors find companies and open opportunities.

- **ALL** Discover nearby companies using city, country, state/region, and radius filters.
- **ALL** Follow and unfollow companies from discovery results and company public pages.
- **ALL** Company public profile view with open audition listings and direct booking entry points.
- **ALL** Find Auditions page organized around followed theatres first, then nearby opportunities.
- **ALL** Search auditions by theatre, show, or role.
- **ALL** Location-aware filtering for auditions with radius-based discovery.
- **ALL** Video-only auditions surfaced alongside in-person opportunities.
- **ALL** Public audition browsing for logged-out visitors with sign-in redirect for booking.

Booking and Conflict Workflow

Everything tied to audition submission, preferences, and conflict handling.

- **ALL** Live audition booking from open session slots.
- **ALL** Video audition booking and submission workflow.
- **ALL** Role preference selection during booking: Any Role, Preferred Roles, or Specific Roles Only.
- **ALL** Answer company-defined audition questions, including conditional follow-up questions.
- **FREE** **PRO** Per-show conflict entry on audition submissions.
- **ALL** Conflict edits allowed until the company freezes the production conflict calendar.
- **PRO** Persistent profile-level conflict calendar.
- **PRO** Auto-sync of profile conflicts into audition bookings.

Pipeline Tracking and Responses

Tools that let actors manage the path from submission through callbacks and casts.

- **ALL** My Bookings view for tracking active and past audition bookings.
- **ALL** Video audition submission management from the booking workflow.
- **ALL** My Callbacks view for callback invitations and status tracking.
- **ALL** My Sides access for callback materials when shared by the company.
- **ALL** My Casts view for cast offers and production participation.
- **ALL** Callback acceptance and decline actions.
- **ALL** Cast offer response workflow for pending, maybe, and accepted states.
- **ALL** Invitation acceptance for company membership or pre-cast scenarios.

Production, Costuming, and Account Tools

Features available after casting plus the account-level tools actors use day to day.

- **ALL** Production Hub access when an actor has an open cast offer or accepted production participation.
- **ALL** Production Hub posts, announcements, files, and production-calendar visibility with day-detail schedule blocks.
- **ALL** Assigned survey form completion from the Production Hub, including anonymous-response scenarios when enabled by the company.
- **ALL** Actor-side visibility into costuming information for participating productions.
- **ALL** Notification Center access from the top-bar bell.
- **ALL** Email preferences management.
- **ALL** Billing and subscription management, including upgrade to Pro.
- **ALL** Account settings, release notes, guides/help, and feedback/support pages.
