

FULL FEATURE INVENTORY

Everything companies can run inside *MasterCast*.

This document consolidates the current company-side feature set across onboarding, show setup, auditions, callbacks, casting, production hubs, technical workflows, costuming, team management, and billing. Tier-limited items are marked inline.

[Show setup](#)[Auditions + casting](#)[Production hubs](#)[Administration](#)

Company plans at a glance

ALL PLANS

Core show, audition, callback, cast, and production-hub workflows are central to the platform.

PROFESSIONAL+

Adds higher capacity, Technical Hub workflows, costuming, custom email templates, and broader team support.

ROLE-BASED ACCESS

Owners, Admins, Directors, Pro Team, Technical Directors, and technicians see tools based on company or show scope.

PRODUCTION LIFECYCLE

Companies can move from discovery-facing auditions through final cast decisions and into production collaboration.

Feature Inventory

Organized around the company workflow from company administration and show setup through auditions, casting, production collaboration, technical planning, and plan-limited operations.

Company Account and Administration

Core administrative capabilities available at the company level.

- **ALL PLANS** Company onboarding with company details and genre selection.
- **ALL PLANS** Context switching between company roles and actor mode on shared accounts.
- **ROLES** Role-based access for Owner, Admin, Director, Pro Team, Technical Director, Light Technician, and Sound Technician users.
- **ALL PLANS** Company dashboard with active-show, upcoming-session, recent-activity, and quick-action views.
- **ALL PLANS** Role-aware left navigation for Dashboard, Shows, Members, Billing, Settings, Support, Guides, Release Notes, Company Documents, and more.
- **ALL PLANS** Notification Center access from the top bar.
- **ALL PLANS** Members and invitations management for internal staff and collaborators.
- **ALL PLANS** Company settings, billing, email preferences, guides/help, release notes, and feedback/support tools.

Shows, Locations, and Setup

Foundational production-management tools used before auditions begin.

- **ALL PLANS** Shows list with search, status filtering, and card or table view modes.
- **ALL PLANS** Create and edit shows with title, details, genre, status, payment type, union type, synopsis, author/composer, and show image.
- **ALL PLANS** Show overview with structured setup, casting, and production tab groups.
- **ALL PLANS** Show status management across Draft, Active, and Archived.
- **ALL PLANS** Role management with role type, gender, vocal range, age range, descriptions, ordering, and pre-cast flags.
- **ALL PLANS** Pro Team access tab for show-scoped team permissions.
- **ALL PLANS** Company documents library for reusable internal files.
- **PROFESSIONAL+** Company locations management for production scheduling and multi-location performance support.

Auditions, Questions, and Documents

Public-facing and internal tools that shape how auditions are collected and reviewed.

- **ALL PLANS** Default audition question toggles and custom question builder with conditional sub-questions.
- **ALL PLANS** Registration forms upload and management.
- **ALL PLANS** Audition-document and early sides upload management.
- **ALL PLANS** Production calendar setup for rehearsals, performances, tech, callbacks, dress rehearsals, live auditions, and video auditions.
- **ALL PLANS** Day-detail time blocks with what-is-happening notes, cast buckets, and day cancellation state.
- **ALL PLANS** Live audition session scheduling with dates, times, slot duration, buffers, notes, slot counts, and booking status.
- **ALL PLANS** Automatic video audition due-date session handling from the calendar workflow.
- **ALL PLANS** In-person audition review and video audition review workflows inside the show.

Casting, Comparison, and Decisions

Decision-support tools from callback consideration through final cast offers.

- **ALL PLANS** Per-role director comments and rankings during audition review.
- **ALL PLANS** Potential callback list management and callback finalization.
- **ALL PLANS** Callback notification workflow to actors.
- **ALL PLANS** Sides Manager for callback-stage role-specific materials.
- **ALL PLANS** Cast conflict review tools and conflict freeze controls.
- **ALL PLANS** Compare Actors view with role-alignment, warnings, and conflict information.
- **ALL PLANS** Final cast list builder and cast assignment workflow.
- **ALL PLANS** Pre-cast invitations, cast offers, actor responses, and post-decision notification flows.

Production Hub, Pro Team Hub, and Technical Hub

Collaboration workspaces that take over once a show moves into production operations.

- **ALL PLANS** Production Hub with posts, announcements, files, calendar details, cast notes, and assigned survey forms for cast and company participants.
- **ALL PLANS** Production Hub access based on open cast offers, not only finalized cast state.
- **ALL PLANS** Reusable survey form library, show-level form assignment, and response review workflows.
- **ALL PLANS** Pro Team Hub for leadership-only posts, files, and calendar coordination.
- **PROFESSIONAL+** Technical Hub for Technical Directors and technicians, including tech notes, tech-only days, assignments, files, and posts.
- **PROFESSIONAL+** Technical Director ownership of technical calendar activity and technician invitation flows.
- **ALL PLANS** Day-detail schedule blocks carried into hub calendars.
- **ALL PLANS** Cancelled production days visually propagated through hub calendars.

Costuming, Capacity, and Plan-Limited Features

Features tied to higher operational scale or specialized production workflows.

- **PROFESSIONAL+** Costuming module with measurements, costume records, and fitting workflows.
- **PROFESSIONAL+** Custom email templates for branded communication workflows.
- **PROFESSIONAL+** Technical Director seats and technician seats tracked separately from pro-team seats.
- **ALL PLANS** Plan-based limits for active shows, admin seats, pro-team seats, and customer access.
- **ALL PLANS** Plan-based capacity scaling from single-show operation to unlimited enterprise usage.
- **PROFESSIONAL+** Multi-location performance scheduling and broader operational support.
- **ALL PLANS** Company-wide and show-scoped permission models to keep visibility aligned to each member's responsibility.
- **ALL PLANS** Email, notification, billing, support, and documentation tooling to support ongoing production operations.
